OUR VISION FOR YOUR BUSINESS

YOUNG BUT GUARDIANS OF A LONG TRADITION

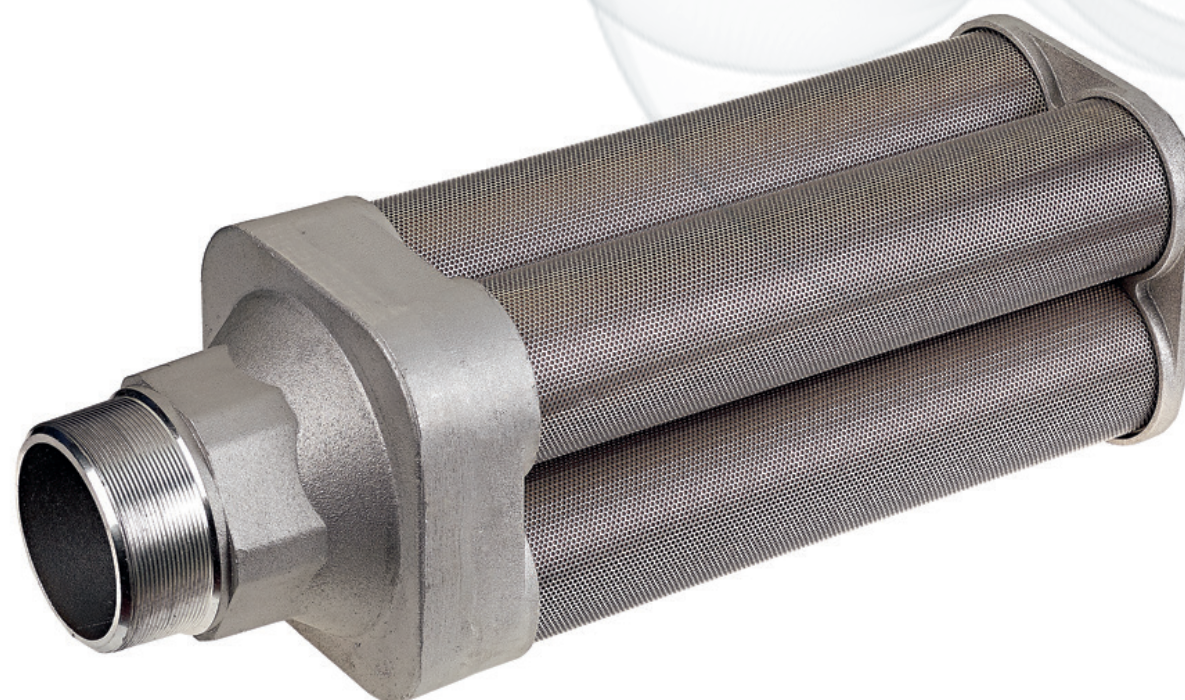

SAF S.r.l. was established in year 2007, following the acquisition of an important company manufacturing sintered bronze filters, silencers and accessories for pneumatic automation and many other industrial sectors.

SAF today is a reality in progressive growth, linking the culture of know-how with a modern business approach, technological and international. Our main goal is satisfy the customers' needs.

In order to do that, SAF choose the best raw materials and keeps itself abreast in terms of technology and organization.

During these years, SAF invested in smart technicians and modern equipment, recently it has bought a new sintering line. This allows to our company the possibility to offer high standard products, also thanks to careful quality control. Moreover our R&D department can offer special manufacturing and tailor made solutions of bronze sintered components, stainless steel and polyethylene.

THIS IS WHY
WE ARE **YOUR** IDEAL
PARTNER
